VANSH GARG(221210118)

PROBLEM STATEMENT

- In college life, the student body and the teachers face a lot of issues due to **lack of proper communication channel** between them.
- Problems faced include –
 - delivery of material from teachers to students.
 - issuing of notices at the appropriate time.
 - Decentralized resource pool
 - Problems in doubt resolution

PROPOSED SOLUTION

Building a one stop solution that serves in the interest of both the students and the teachers of an organization built with the idea of streamlining various day-to-day activities that take place in an organization.

Proposals in first phase

1. User Management
2. Resource Sharing
3. Notice Dissemination
4. Marks dissemination
5. Doubt Resolution

AcadBud

INTRODUCTION

- The purpose of this project is to provide a platform that would eliminate the varied nature of communication held between teachers and student.
- Aimed at providing a single platform which facilitate the interactions discussed above.
- The scope of the project include providing a platform having features like resource sharing, notice dissemination and user management.
- It will be accessible to students, faculty members, and authorized users.

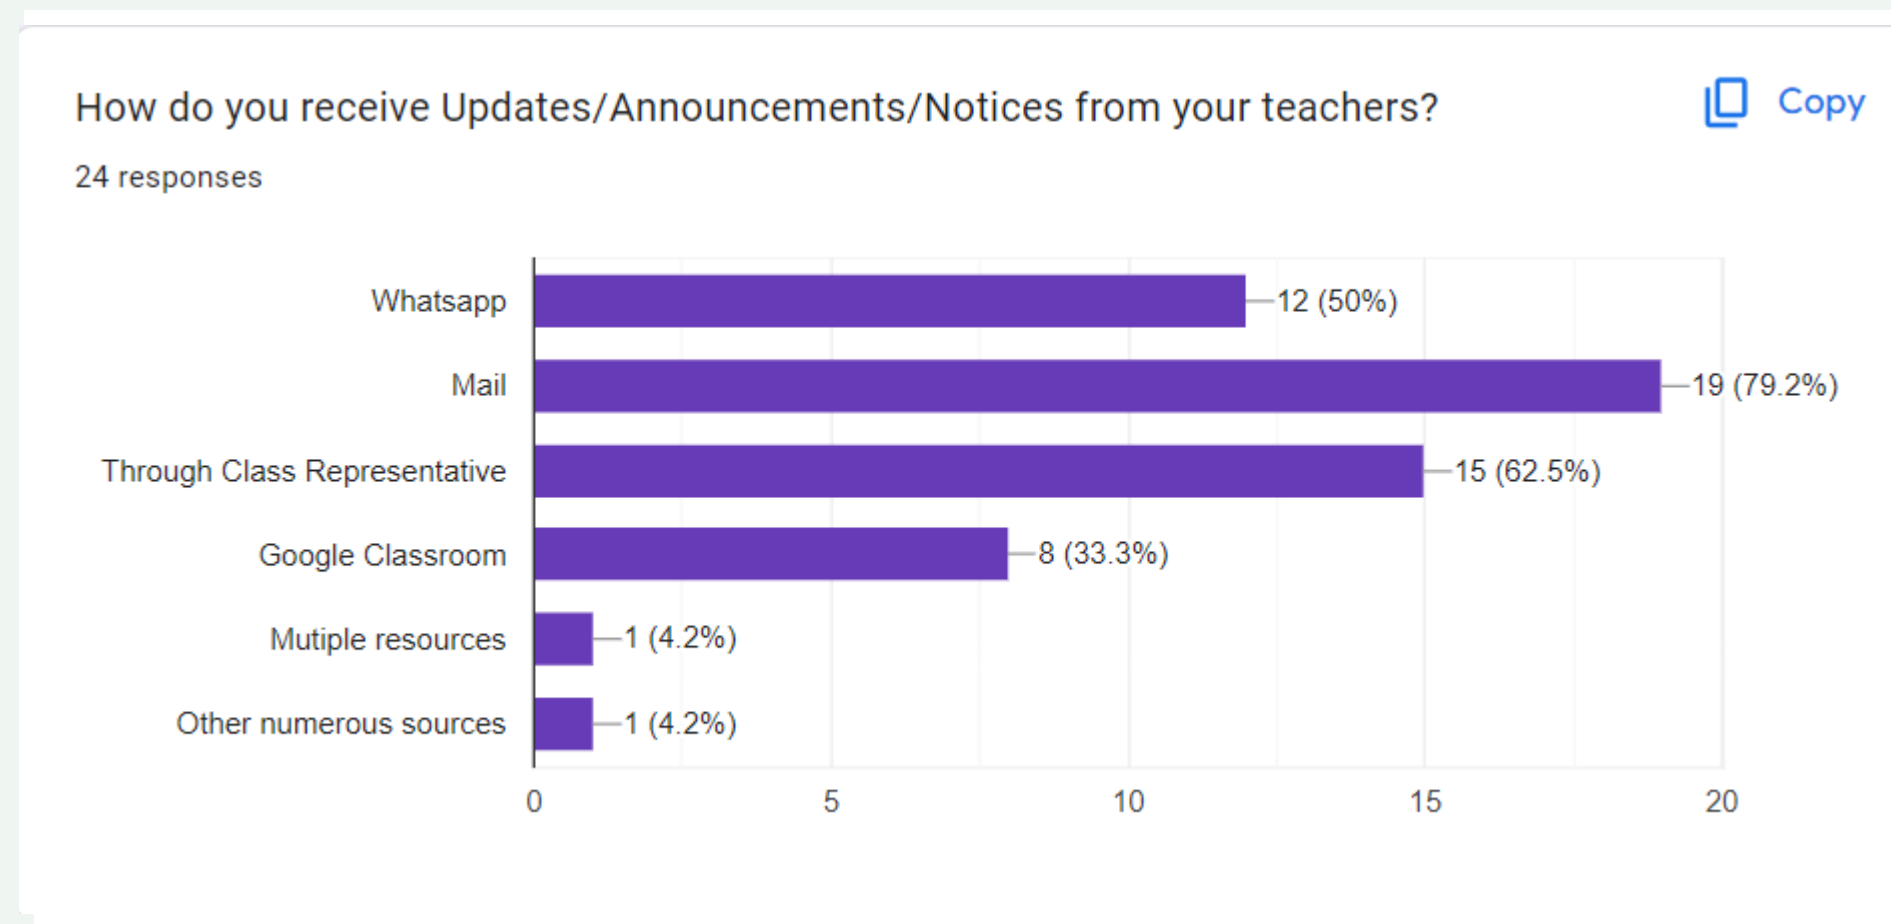

METHODOLOGY

Feasibility Check

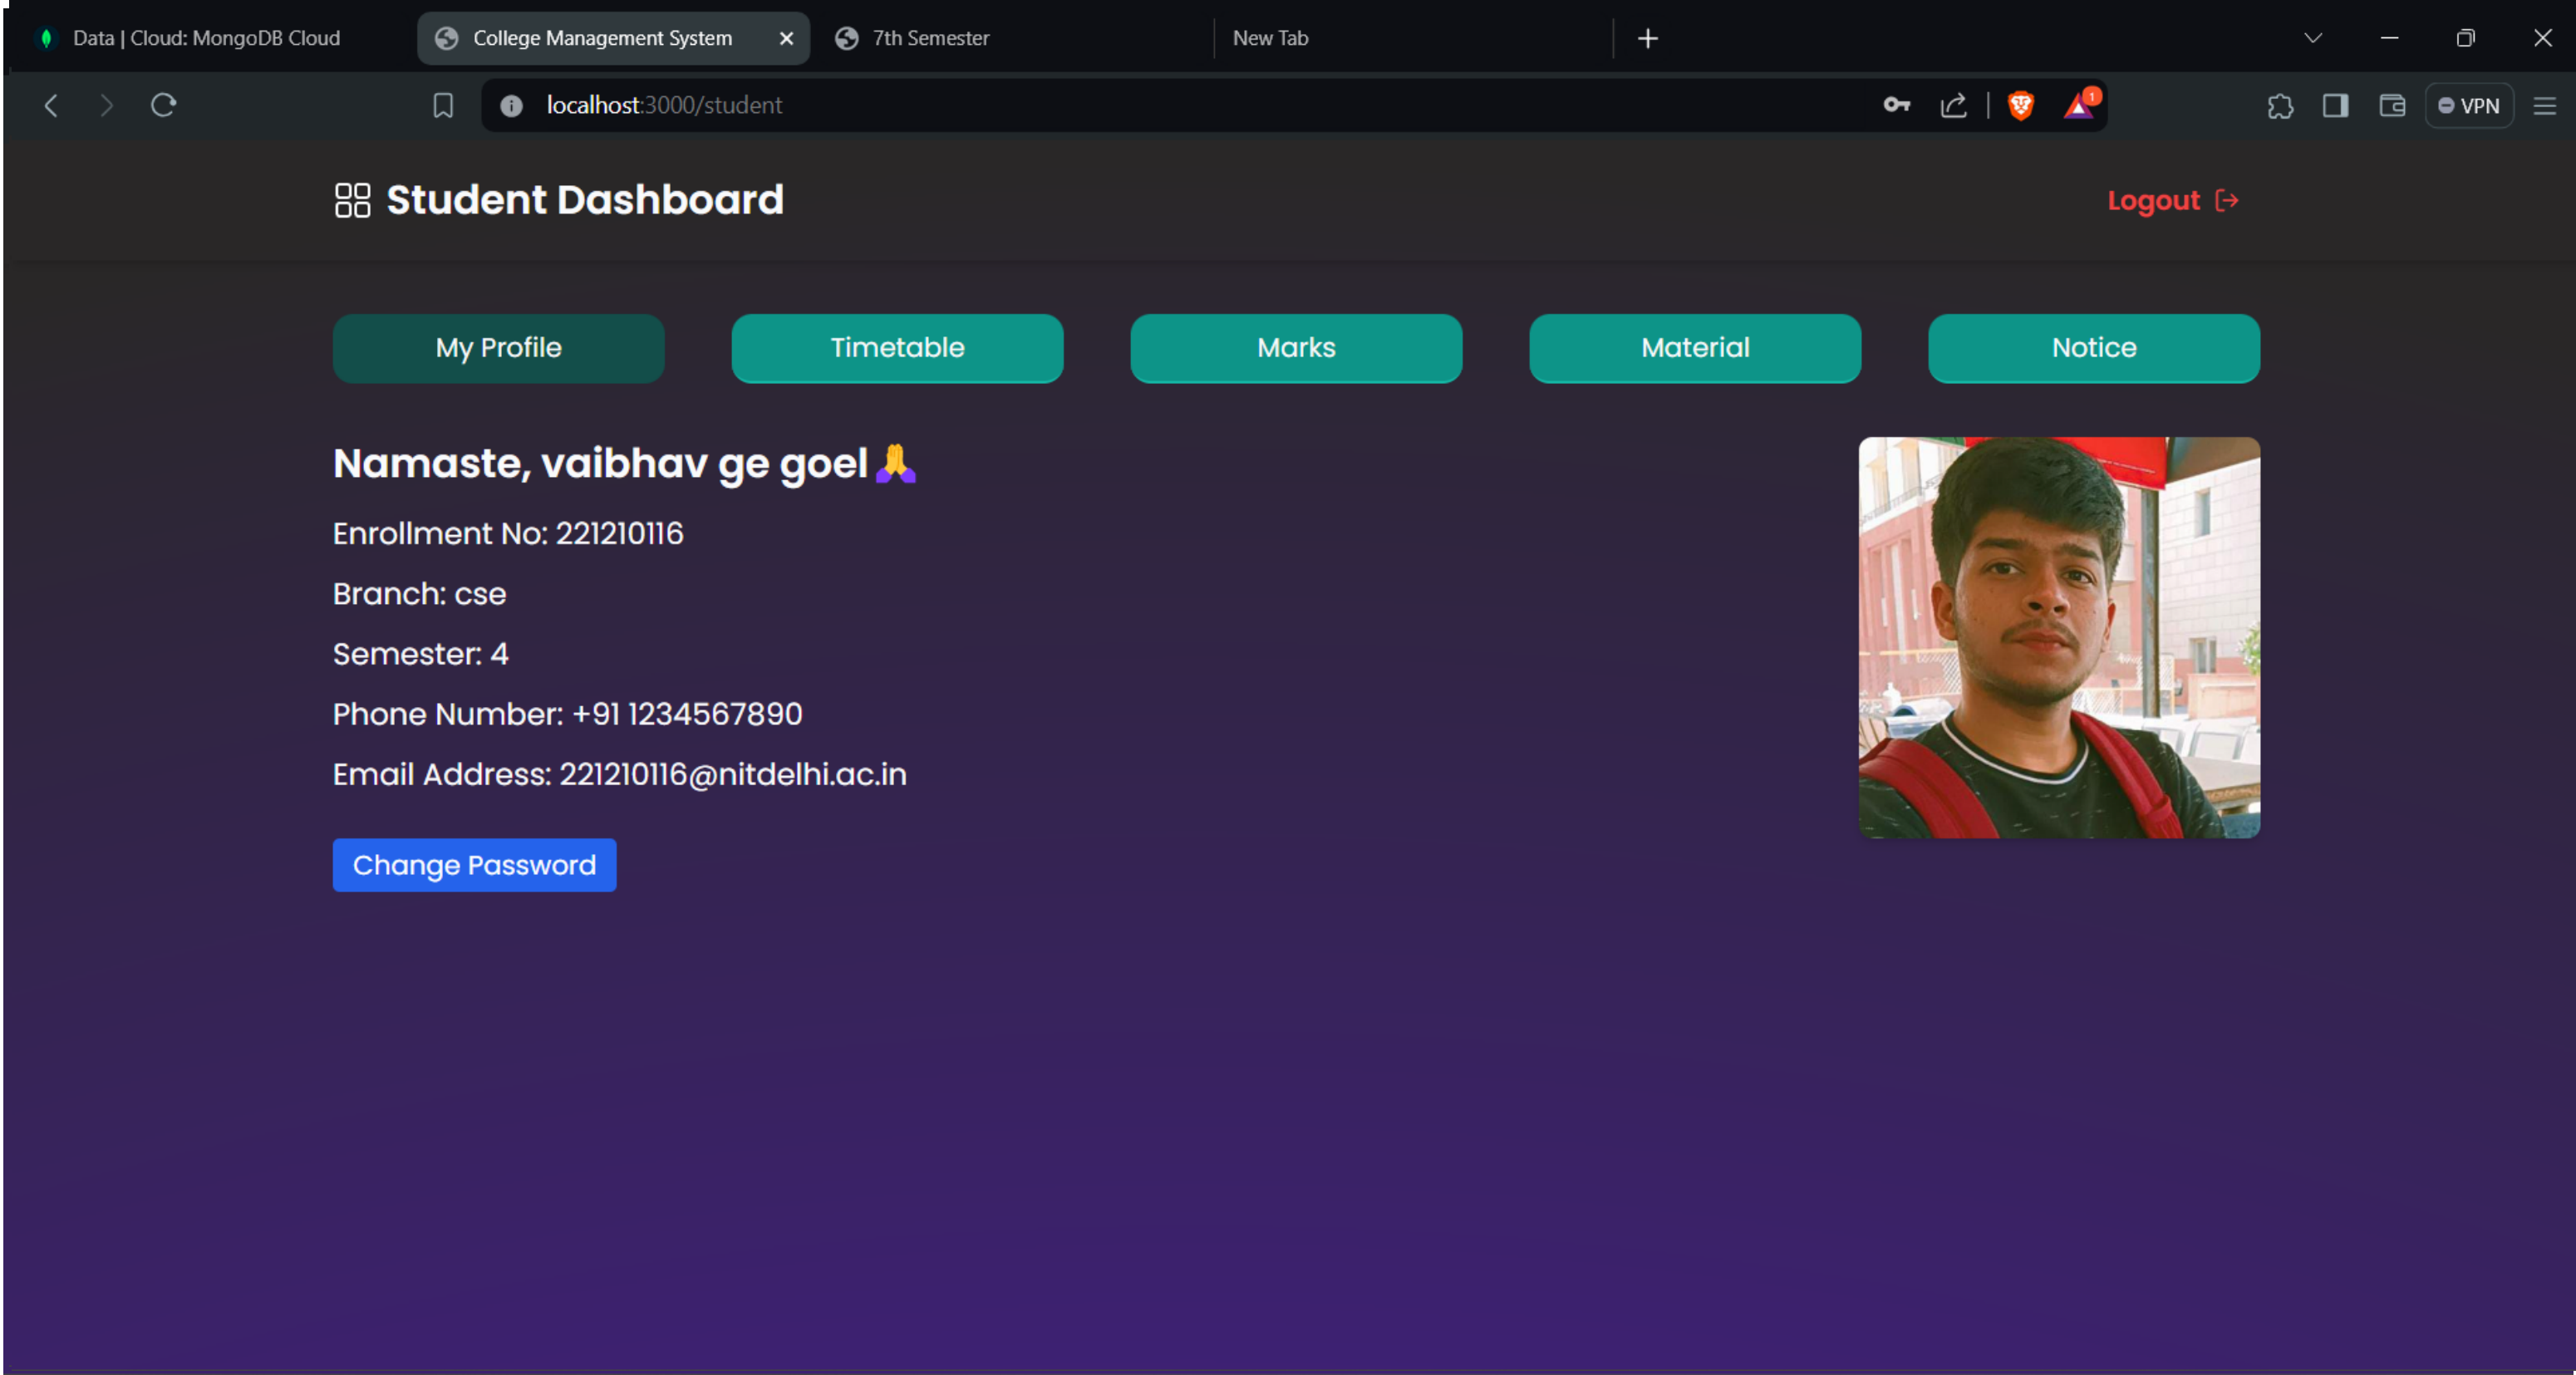

Engaged key stakeholders:
students and teachers

Collected feedback through:

- Direct conversations
- Google Form survey circulated among students

Future Prospects

- Cross Platform application – React Native
- Integration of AI chatbot
- Integration of discussion forum
- Attendance management
- Holding quizzes
- Adding Non-Academic functionalities

Possibilities are
endless!!!!!!

THANK YOU
